

ARICOMMA

Document automation in Judicial institutions

Štěpán Bouda

Director of Enterprise Content Management Division

23/11/2023

Current situation

In the European Union countries

Research done by the EC

Use of digital technology by courts and prosecution services, 2022

For each Member State, the two columns represent the use of digital technology in the following authorities (from left to right):
 1. courts
 2. prosecution service

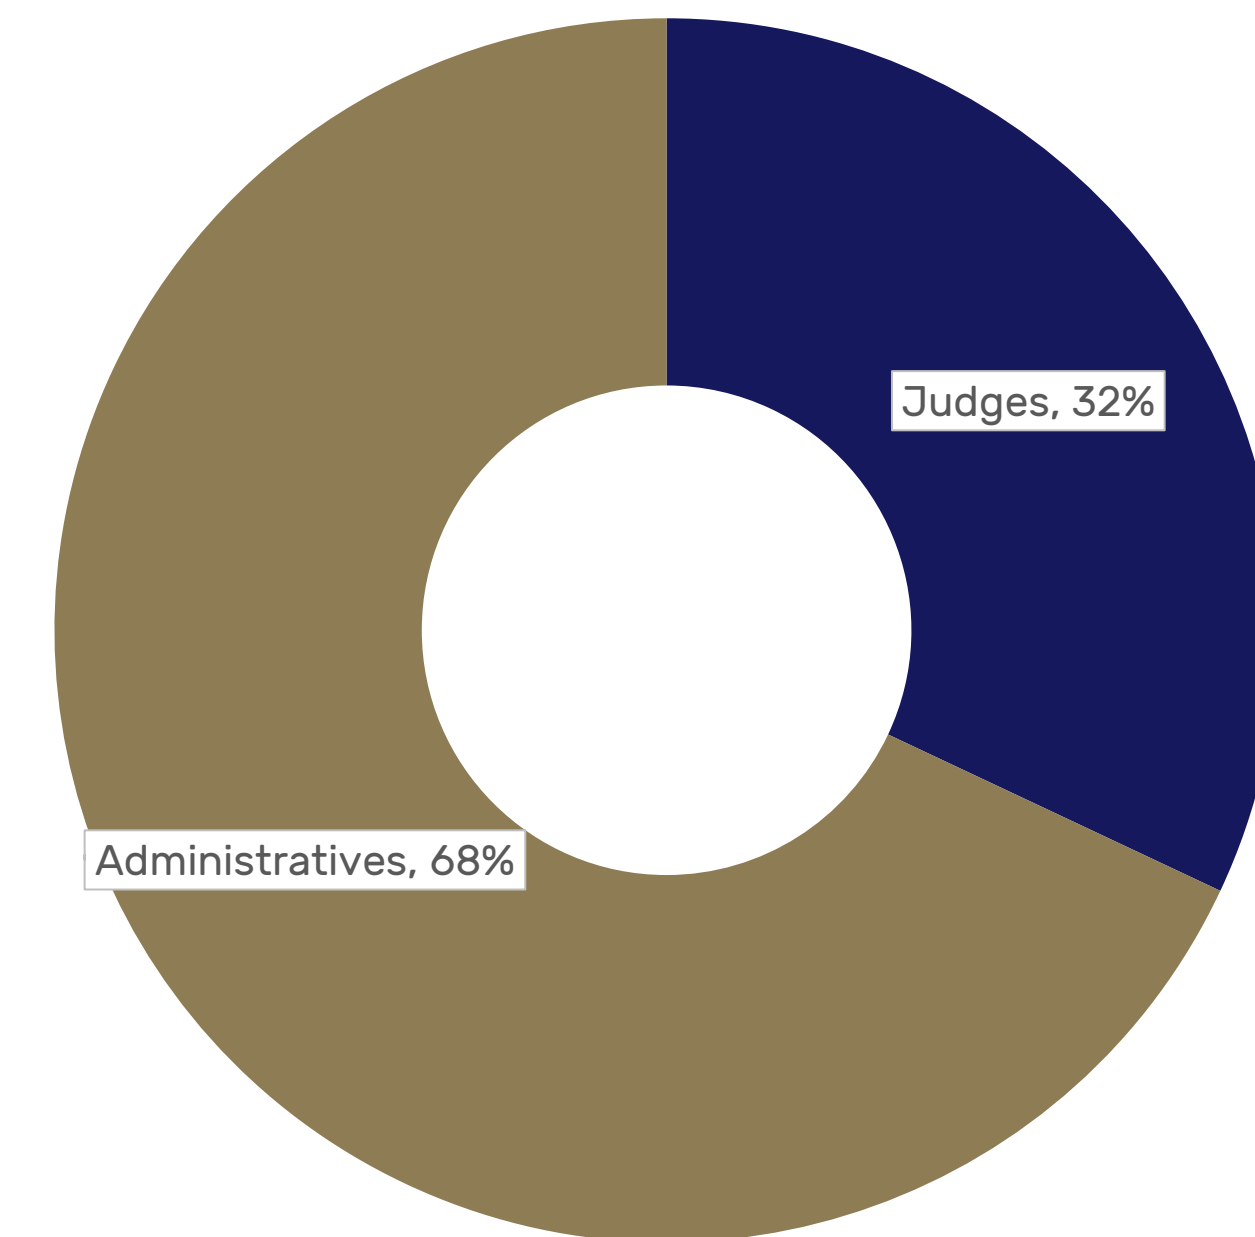

(*) Maximum possible: 7 points. For each criterion, one point was given if courts and prosecution services, respectively, use a given technology and 0.5 point was awarded when the technology is not always used by them.

Situation in Judicial Institutions

In the Czech Republic

- ⤴ Paper cases, paper archives
- ⤴ Island IT Systems – Courts, Police, Prosecutors
- ⤴ Aspiring judges and assistants overwhelmed by administration

■ Judges ■ Administratives

Advanced Document Generation

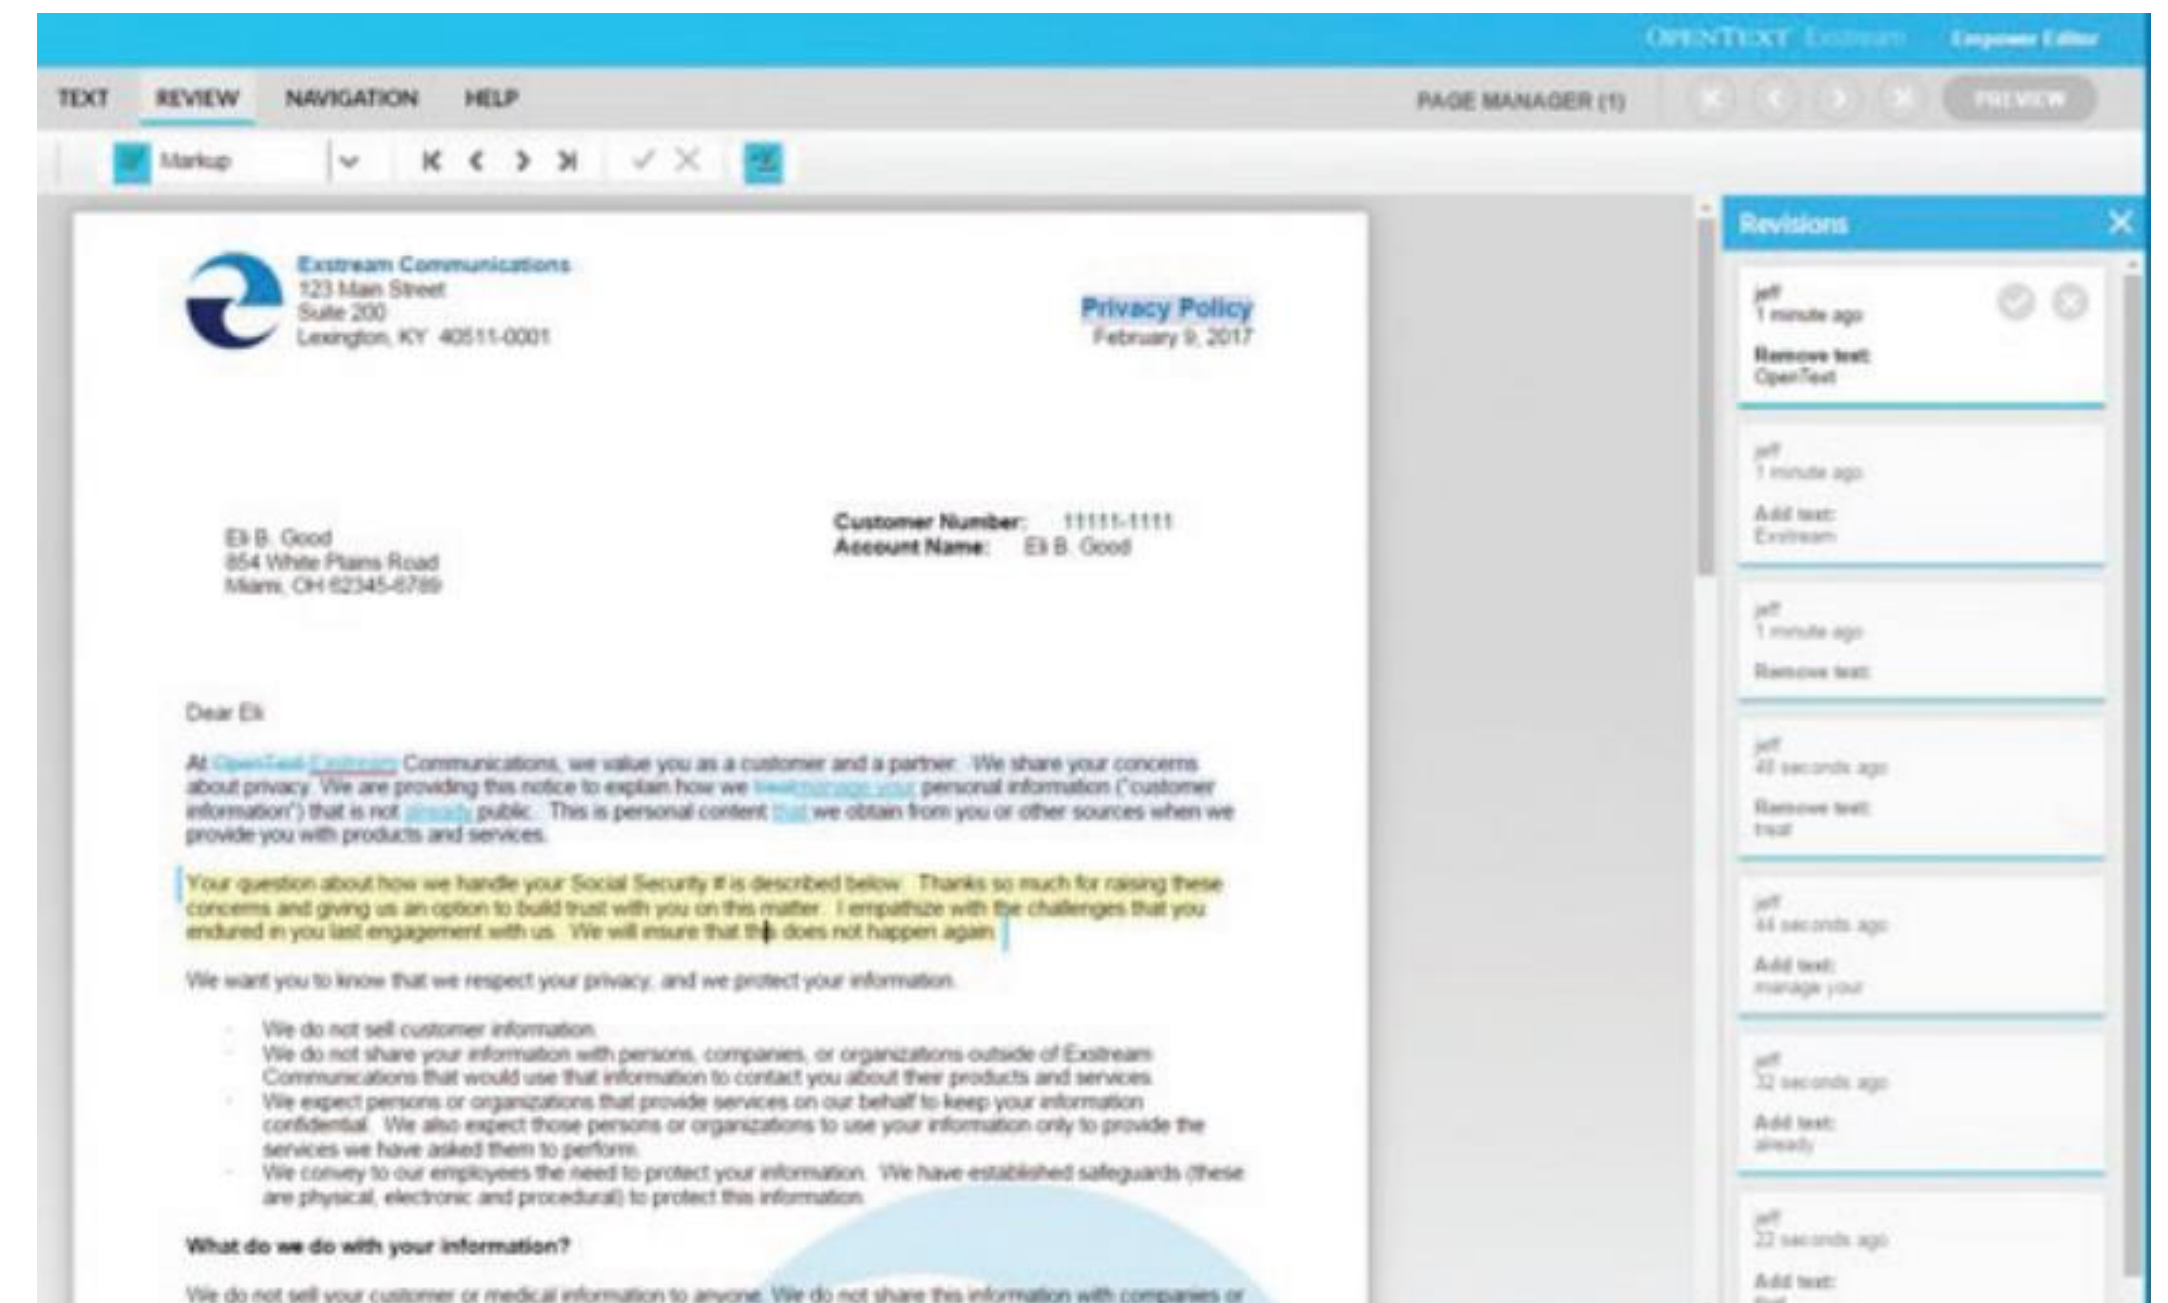

For Judicial Institutions

Advanced Document Generation

Features

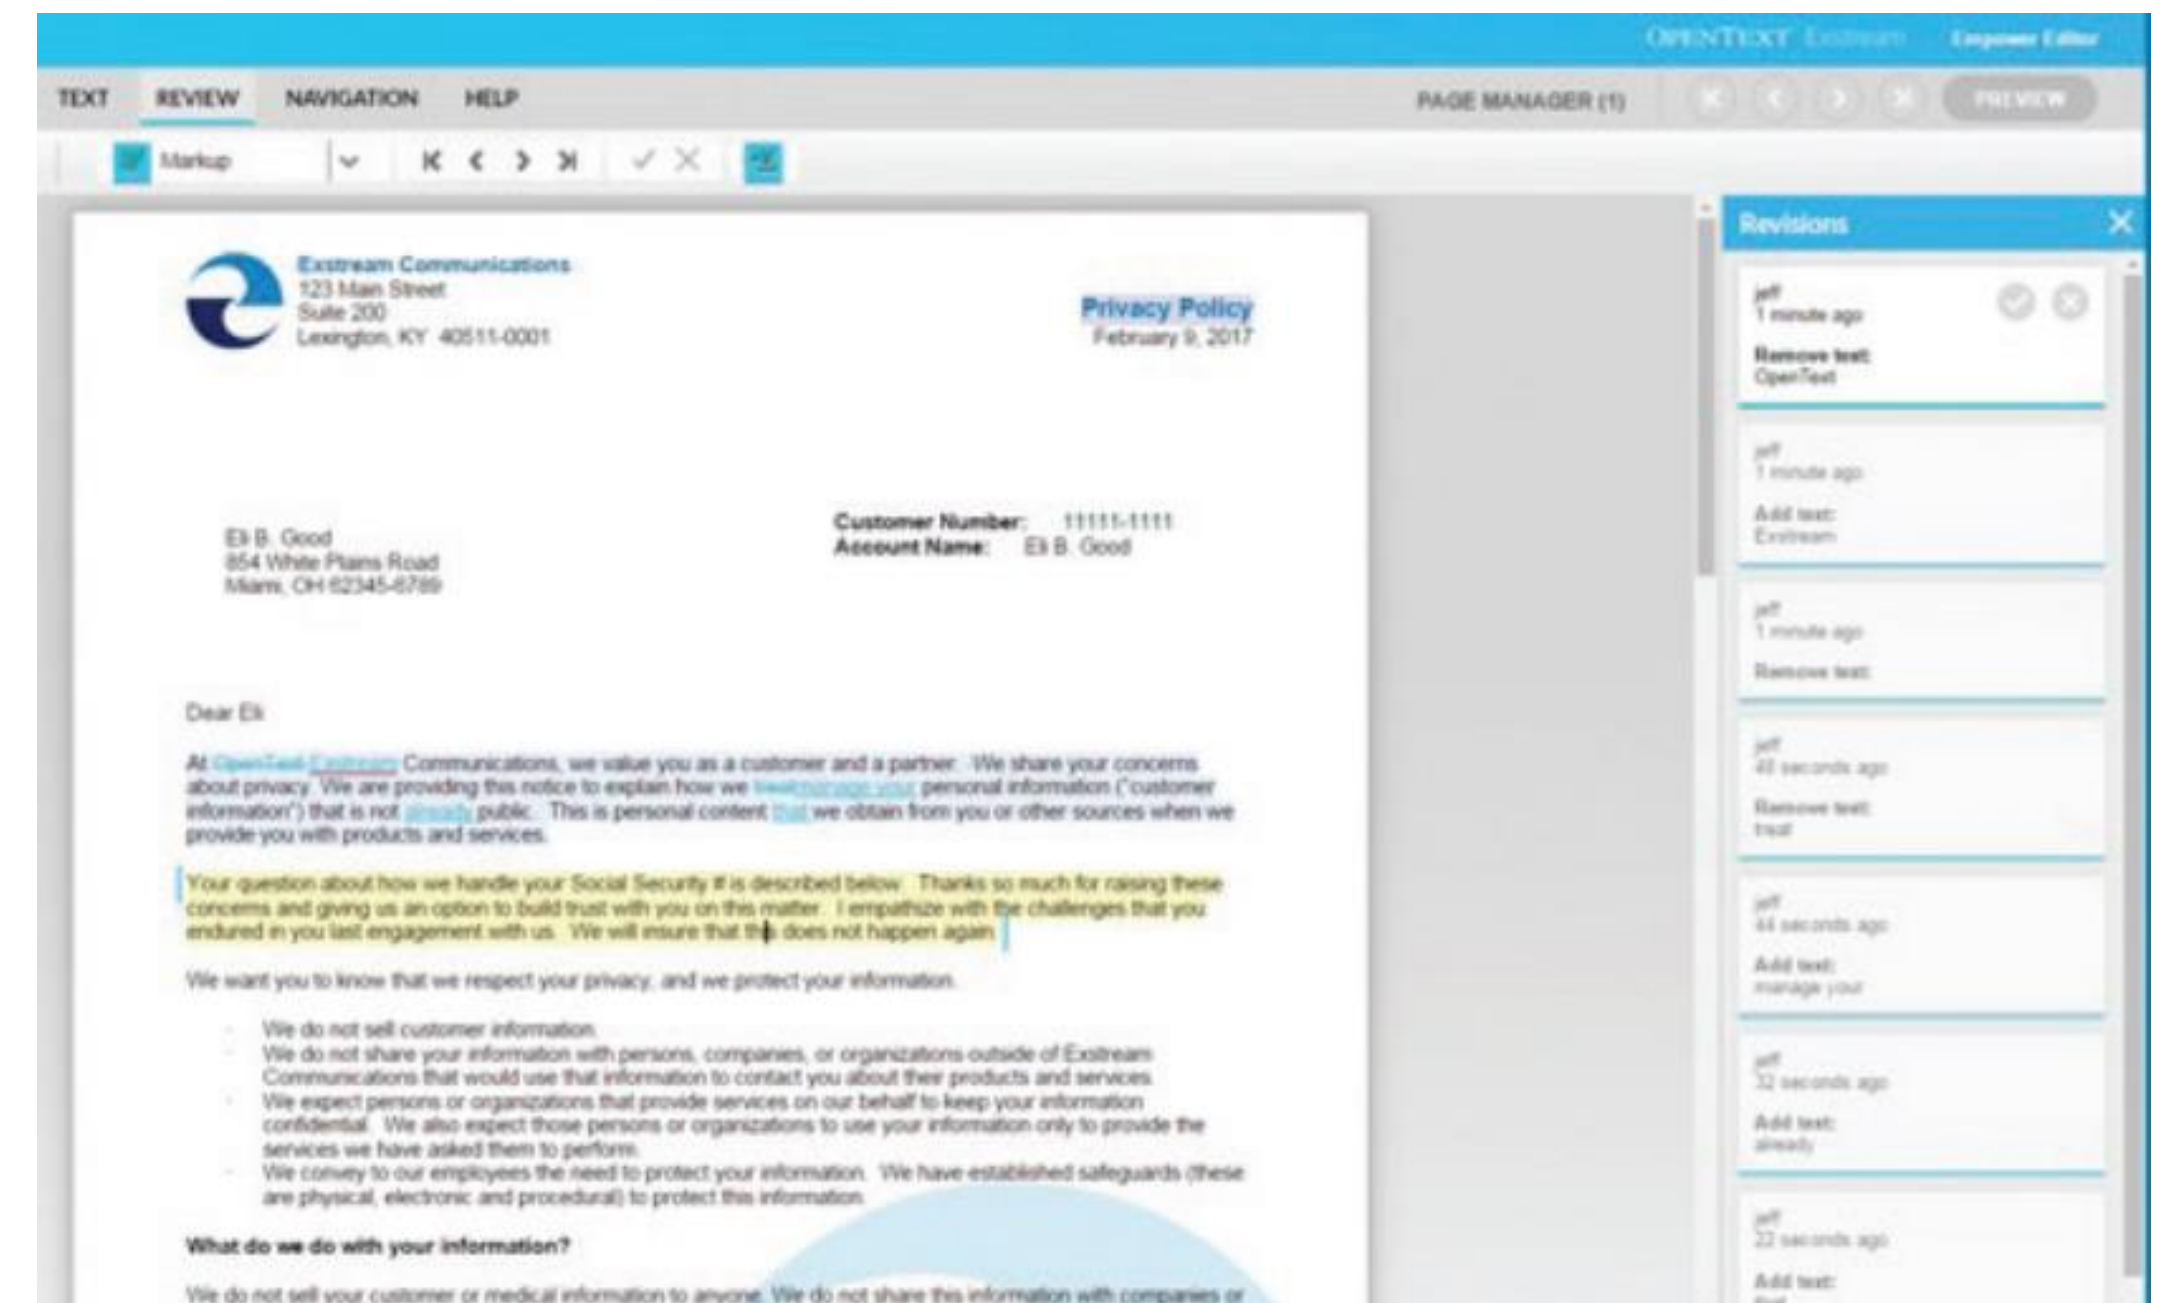

- ^ Repetitive documents
 - ^ Judgement by acknowledgement
 - ^ Orders assessing a Court fee
 - ^ Simple judgements
- ^ Secure templates
- ^ Documents composition
- ^ Electronic signature support
- ^ Various output channels

Advanced Document Generation

Benefits

- ^ Reducing low-value work of Assistants to judges
- ^ Limiting mistakes
- ^ Security and Privacy
- ^ Integration to existing systems

Usage of AI

For the document search and understanding

The Situation

- ^ Huge archives
- ^ Limited search options
- ^ Disconnected archives
- ^ High security and Privacy environment

OpenText Aviator

Features

- ^ Document or case summarisation
- ^ Know-how of complete archive
- ^ „Human-like“ chat about the content
- ^ Enforcement of User access rights
- ^ Review findings by Judges
- ^ Expected: 2024

Demo Example

Summary of Document contents

Analysis of document contents

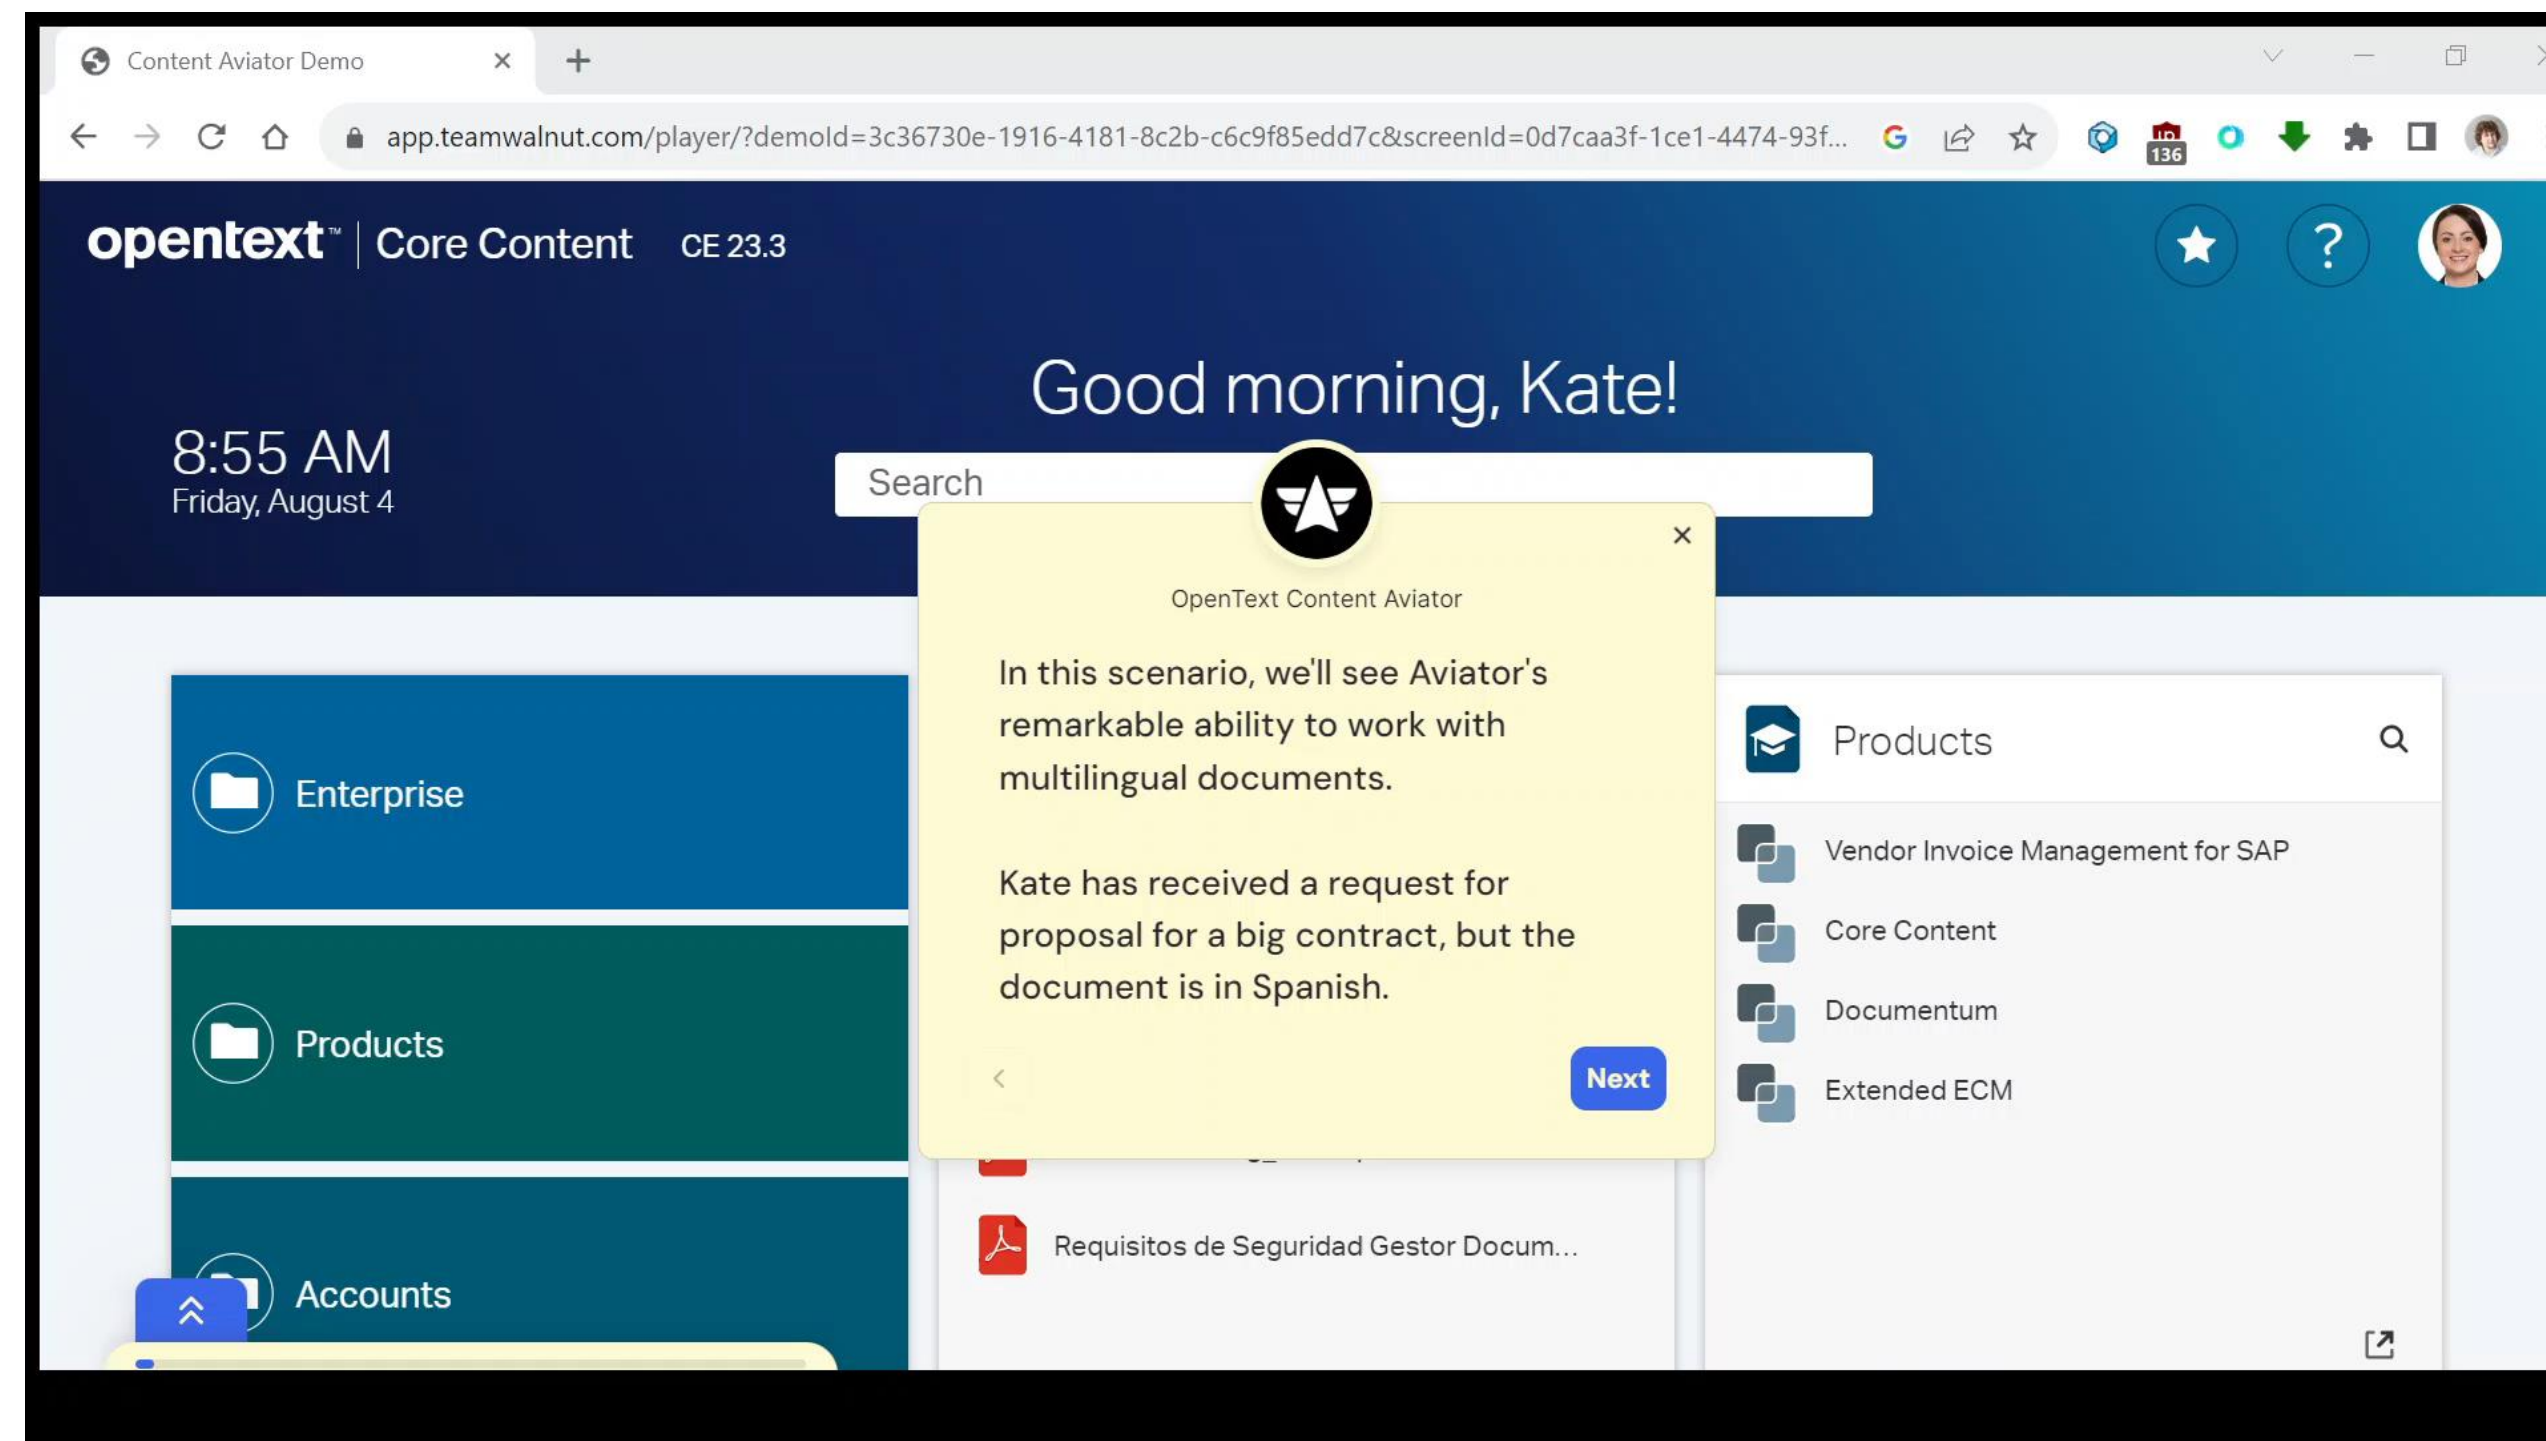

The screenshot displays the OpenText Content Aviator web application interface. At the top, the browser address bar shows the URL: `app.teamwalnut.com/player/?demold=3c36730e-1916-4181-8c2b-c6c9f85edd7c&screenId=7afc7947-9d52-41d0-98...`. The application header includes the OpenText logo, "Core Content", and version "CE 23.3". A personalized greeting "Good morning, Kate!" is displayed, along with the time "8:48 AM" and date "Friday, August 4". A search bar is visible. A central yellow dialog box with the OpenText Content Aviator logo and text reads: "In this demo, we'll take on the role of a sales engineer who is working with a contractor on an important client engagement. With the help of Content Aviator, we'll analyze the services agreement that has been agreed with the contractor." Below the text is a "Next" button. The left sidebar contains navigation items: "Enterprise", "Products", and "Accounts". The right sidebar shows a "Products" list with items: "Vendor Invoice Management for SAP", "Core Content", "Documentum", and "Extended ECM". At the bottom, a document icon is labeled "Requisitos de Seguridad Gestor Docum...".
