Health

Iris Global handles 23% of burial services in Spain, providing services to leading companies in the sector such as Santalucía, SegurCaixa, among others.

2020

**133.500**

death records (2020)

**+58,8%**

**85.000**

death records (2019)

Death Certificate

Certificate of Last Will

Certificate of Insurance Contracts for Death Coverage

# Civil Registry Court of Peace

# Ministry of Justice

Manual and individual application

On-site application

On-site and physical collection

Sending of physical documentation

Increasing the number of pending cases

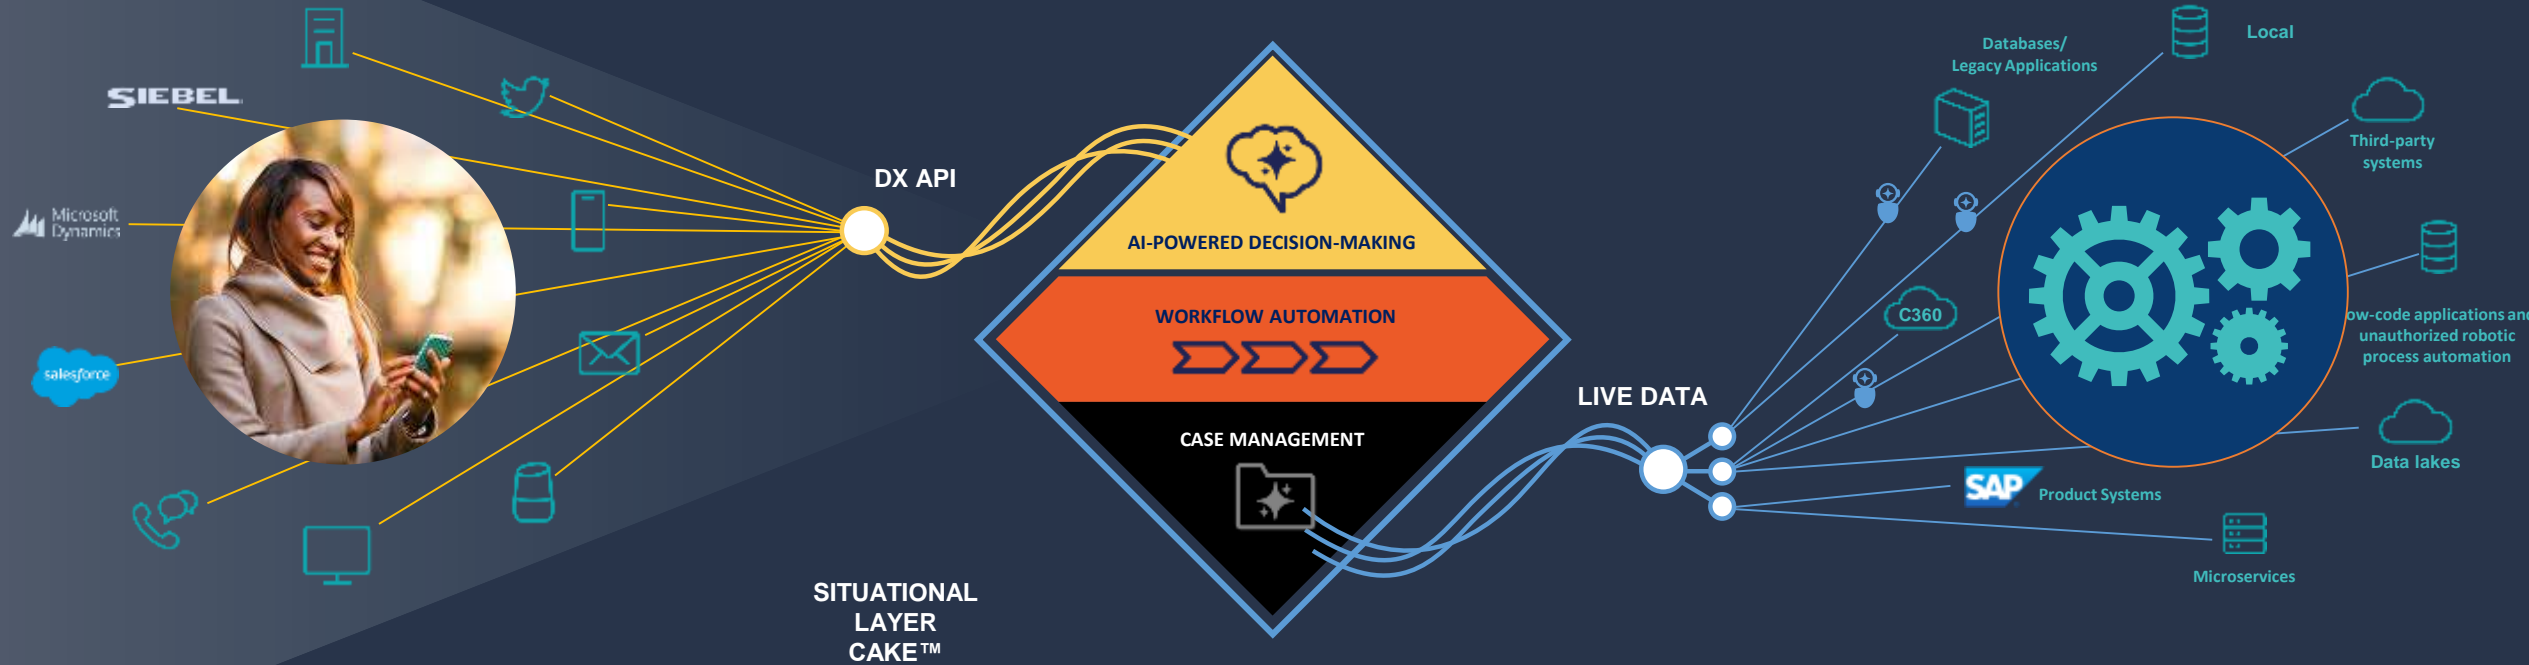

Increasing the number of days to deliver documentation to the client

Decreasing the NPS\*

# Process Transformation with Pega

## CHANNEL INDEPENDENCE

Extend across all your digital channels with Digital Experience APIs

## REUSABILITY

Specialization by product, customer, or region with the Situational Layer Cake™

## DATA VIRTUALIZATION

Consume any on-premises or enterprise data source with Live Data

# Pega solves three major problems and needs

1

## *Making Decisions*

Offering 1:1 Capabilities: *Personalized customer engagement* powered by *real-time omnichannel AI*

2

## *Get Work Done*

Making customer-facing processes more efficient through *No/Low-code development* and *end-to-end automation and Robotics (RPA)*

3

... and often BOTH AT THE SAME TIME, e.g. in the context of customer service: when interactions involve processing work to resolve a request

# What we did

- Integration with Insurance Cores when a death notification is received

- Validate information with client only when it is not complete

- Online application using RPA without intervention of an agent

- Download certificates without intervention of an agent

- Deliver certificates automatically

**This process applies for 80% of the cases,  
where the register is digitized**

# Some numbers

**9,000**

pending cases  
September 2022

**140**

cases currently  
pending

**54.88%**

NPS  
September 2022

**73.33%**

NPS  
September 2023

**22.14**

FTE's released

# Conclusions

-  Digitalization impacts positively: efficiency + experience
-  Collaboration between public and private sector as a key factor of success
-  Improve integration through API's giving stability to the process
-  Thinking massively
